Hi Kirby,

I don't really have questions. I actually broke my wrist this morning and am dealing with that. Let me take a look at everything again and I'll get back to you by tomorrow if I think of anything.

Sorry.

Robin

Hello Robin,

Just checking to see if you need more time or would like to chat on the phone about any specific questions or concerns on the remedial action work plan.

Best,
Kirby

Subject: Ringwood Superfund Site OU2 RAWP – TASC

Hello Robin,

EPA has asked TASC (Technical Assistance Services for Communities) to provide an independent review of the OU2 Remedial Action Work Plan (RAWP) for Ringwood Mine. The RAWP outlines the plan for the work that will be completed on the Cannon Mine Pit, Peters Mine Pit and O'Conner Disposal Area in 2021 and into 2022. It is available online at:

<https://semspub.epa.gov/src/document/02/620277>. TASC is preparing a summary fact sheet and technical comments on the RAWP. TASC will also present the information in a virtual meeting, anticipated in late February.

We are interested in any specific questions or concerns you or anyone you know has about the RAWP. Please feel free to provide your feedback by January 26 via email or we are happy to set up a phone call to hear from you directly.

We look forward to your input.

Best,

Kirby
